GOV. BARBOUR:

Hurricane Katrina was the worst natural disaster in American history. And unprecedented programs like our first homeowner assistance grants will make a huge difference in our recovery, rebuilding and renewal.

But if you're a homeowner who wasn't eligible for those grants, it's time to stand up and be counted. Whether you had insurance or not, if your home flooded due to Katrina, we want to help.

So I'm asking you to please register at your local service center. The more we know about your needs, the better we can design programs that will work for you.
